April 2026 Helping Uganda…one child at a time

## MEET JOVAN

**My name is Jovan Lubulwa**, and I am in Senior Four (S4) at God Cares High School. I am the 2nd born of ten children. I was born in 2003 and raised by a single mother because our father had left us. We never saw him, but we heard that he passed away last year, in 2025. My mother has done different kinds of casual work, like hand-washing clothes for people and home cleaning, to earn a living, so we would have something to eat. Since I am the oldest son, I also have to find work during the school breaks so I can help my mother take care of the family.

I appreciate Buyamba Outreach Ministry so much because they found us at home in 2015 when we needed it the most, found us schooling, and registered us for sponsorship. My siblings and I joined God Cares Nursery and Primary School that year. Since then, my life has changed. I was already past the school-going age when I entered primary school, and I could hardly read or write. I was not only put in school, but Buyamba also gave me everything I needed to be there.

The Social workers made sure that I reported back to school on time. I am excited and grateful to God that I am now completing Ordinary Level of high school (S4) this year… the Lord has brought me this far! One of my biggest highlights was the December Christmas basket provided by my sponsors; I happily enjoyed it with my family!

I thank Buyamba and my sponsor for loving my family and me so much. May God bless you all and the works of your hands!

*"I am excited and grateful to God that I am now completing Ordinary Level of high school (S4) this year… the Lord has brought me this far!"*

# ONE IN CHRIST
## AT GOD CARES SCHOOL

**Anyone who has traveled to Uganda and visited God Cares School** knows it is a vibrant community that represents people from many African tribes and nations. Although the Ugandan tribes make up the majority of the school student population, there are a LOT of other countries represented! Some arrive as refugees fleeing turmoil in their country, as with our Sudanese children, but we also welcome children from Eritrea, Tanzania, Kenya, Ethiopia, and additional countries. God Cares School embraces and celebrates children from unique cultures with open arms. God Cares firmly stands on Christian faith and discipleship, yet celebrates the unique traditions represented.

For example, last year, the Sudanese students celebrated their Independence Day with joyful songs and dances, food, drums, and powerful drama presentations that shared their heritage and history. Every year, there is a Cultural Day at each school where students enjoy a traditional dress day, perform songs and dances from their native culture, and share meaningful cultural stories. These events create opportunities for laughter, learning, and connection as the children teach one another about their backgrounds.

The philosophy of God Cares School is simple, yet profound. We celebrate our differences while uniting as one family in Christ.

In a world often divided by tribe, nation, or background, the school models love and acceptance. The children learn that their shared faith knows no cultural boundary while enriching cultural identity. Children at God Cares school build friendships that will someday impact all of Uganda. It is a living testimony to the power of God's love to bring diverse people together...
